2020 Bowen Estate Shiraz

Region: Coonawarra, South Australia

Variety: Shiraz 100%
Estate grown and hand pruned

Vintage: We hope that the year 2020 may never be eclipsed. The many issues faced by all around Australia and the world; covid, fires and drought tested us all. Thankfully here in Coonawarra we felt extremely blessed and fortunate as we were very isolated from these outside pressures. we did experience lower than average yields, which meant during vintage we barely raised a sweat and it was lovely as we were home schooling the children and so they were involved with our harvest. The weather during vintage was glorious with moderate to warm days and ripeness was attained with relative ease. During flowering there were a couple of extremely hot and windy days which hindered fruit set. This was the cause of our lower yields.

Wine: 2020 is a year of elegance and freshness. The glorious weather during the véraison period ensured ripeness was obtained easily contributing to the overall balance in this wine. Bright fresh characters leap out of the glass and are moderated by the subtle oak flavour. The palate is elegant in structure and exhibits lovely depth of traditional Shiraz plummy fruit characters, culminating to the length and roundness of the mouth feel.

Drink: Now and with good cellar conditions up to 2030.

The Bowen Family is proud to guarantee the origin of this wine. All grapes used are grown and harvested from our sustainably grown vineyards located on Coonawarra's famous terra rossa soil.
