# COMET TAIL

*Sparkling Shiraz*

The Samuel's Gorge Comet Tail is made in the traditional method, also known as method Champenoise. The Shiraz grapes are fermented with time and care in the outdoor winery, under the big blue McLaren Vale sky. The wine is first barrel aged in old French oak, then bottle aged, before being finished with a dosage liqueur. This extended time on lees allows additional flavour and depth to develop, resulting in a velvety wine of intriguing complexity.

The 2019 Comet Tail is stylistically similar to the intricately layered and textural 2018 release. This sophisticated wine opens with notes of blackberry and juniper, with gentle lashings of anise and vanilla spice. Hints of leather, sage and cigar box help to provide balance to any fruit-sweetness, ensuring the wine finishes with a fresh and savoury lean.

This highly sought-after wine is one we are proud to have in our lineup. It is the perfect welcome drink to share with friends and family, to help create a festive feeling regardless of the occasion.
