

# SWELL SEASON

Margaret River, Western Australia

## 2021 Sauvignon Blanc

---

Alcohol: 13.0%

TA: 8.88

pH: 3.07

### VINEYARD NOTES:

20 year old vines growing on a mix of gravel and clay soils . Spur pruned and vertical shoot positioned canopy. Detailed internal hand leaf removal and hand picked. 4.5tons/ha

HARVEST DATE: 26 February, 2021

### WINEMAKING NOTES:

Whole bunch-pressed, fermented and matured in 40% new French oak for 5 months

### VINTAGE NOTES:

Wet winter made way for a warm start to spring. The vines leafed out early only to receive a battering from spring rain and wind systems all November. Yields were naturally low from all this weather during flowering. Vintage should have been early February but 80mm of rain at the start of February pushed out harvest another 2 weeks. February and March were mild in temperatures throughout.
